

# PORTACOUNT® PRO RESPIRATOR FIT TESTER MODEL 8030

RESPIRATOR FIT TESTING  
YOU CAN TRUST

No other fit tester can quantitatively fit test so many types of respirators—gas masks, SCBAs, respirators, even disposables (for fit testing N95, P1 and P2 disposable respirators, see the PortaCount® Pro+ Model 8038 Respirator Fit Tester). The PortaCount Pro Respirator Fit Tester eliminates the guesswork associated with tedious and error-prone qualitative fit test methods. If the mask requires fit testing, count on the PortaCount Pro to provide the fastest, easiest and best HSE and OSHA-accepted fit test method.
